

For homework this term, the theme is food.
We will be looking at where our food comes from.

Food Art

Create an artistic piece only using food you can grow in the UK. It is important to know what food can grow in a temperate climate. You can bring your project in or take a picture of your creation.

English/Art

Choose a product and map its journey from the country it grows in, where it is packaged, where it ships from, where it is sold, all the way to your plate. You can write about it or create a map of it.

You must:

- Hand in your homework on time.
- Select two activities you find the most interesting.
- Hand in date: Monday 16th October.
- Practise your spellings ready for the test each Friday.

Maths calculations

Collate a list of your favourite food and work out the air miles for the ingredients.

For example, you might enjoy eating a tropical fruit salad with juicy pineapple and sweet mango. But where do those fruits come from? How many air miles has your fruit salad accumulated?

D&T

Create a meal for you and your family and tell them where the ingredients are grown. You could create a meal with food only sourced within the UK, or a chilli con carne with Spanish tomatoes and Canadian kidney beans. Take pictures of your meal.
